Monday, 7th May, 2018

Dear Parent/Carer,

For our Stage 3 Science Unit in Term 2, students will be studying sustainability and the impact their choices have on our environment.

To support this learning, we have organised workshops by Reverse Garbage, Marrickville to be run at school on May 29th.

In these Sustainable Housing Workshops, students will explore elements of sustainability as they work collaboratively to design & construct a sustainable house using packaging and other reusable materials. Students will brainstorm different aspects of houses that can help to improve their sustainability. Using simple low waste construction techniques they will develop an understanding of visual representation and construct a model of the ultimate sustainable "house & land package".

**Date:** Tuesday, May 29th

**Times:** 10am-11am (4/5H)      12.00 - 1.00 (5/6S)

**Cost per student:** \$12

Please complete the permission slip below and return with your payment of \$12 by Thursday, May 24th. As this workshop is linked directly to our Science unit for Term 3, we would like all students to attend.

Please Note: School representation and attendance at excursions, special school activities and out of school activities is dependent upon the continued demonstration of appropriate behaviour and an appropriate attitude in all aspects of school life.

Kind Regards,

Selena McPhee

Deputy Principal

..... ✂ .....

**Please return the permission slip below to the office by Friday 24<sup>th</sup> May.**

I hereby give permission for my child \_\_\_\_\_ of class \_\_\_\_\_ to attend *The Sustainable Housing Incursion on May 29<sup>th</sup>, 2018*. I have enclosed payment of \$12.
