FAMILY CONTRIBUTION FEE FOR 2019 –

SUPPORTING US TO MAINTAIN OUR 21st CENTURY VISION

Dear Parents/Carers,

The Family Contribution Fee of \$45.00, although voluntary, will make a difference to our school finances. In 2018 your contribution assisted us with purchasing new books for the library and purchasing charging stations for our I pads.

In 2019, your much needed contribution will assist further with purchasing much needed robotics equipment for all our students Kindergarten to Year 6. **Your family contribution fees will go towards reaching that reality.**

Our goal is to raise \$6,000. Your \$45.00 per family can go a long way for our great school.

The benefits of teaching robotics in schools include:

- students find it engaging and enjoyable
- students learn 21st-century skills, which are useful for future employment
- robotics is suitable for students with a range of abilities
- robotics develops students' critical and computational thinking skills
- it is an effective way to introduce programming to students.

The total cost of the Family Contribution Fee in 2019 is \$45.00. However, if you do wish to contribute more towards this very worthwhile cause, you are more than welcome 😊.

Thank you in advance for your support in this matter.

Androula Kavallaris
Principal
